

How To Play

[continued]

If you cannot play a card you can draw a new card from the deck. If you cannot play that card you must pass thereby retaining the card in your hand.

5. Continue playing, taking turns by going around the table clockwise. If you have a double-domino card that matches, place the double-domino card sideways rather than end to end. This allows players to play on either end of the domino card.

6. End the game when one player has used all of his or her cards, when no one can play any cards, or when there are no more cards left to draw.

7. Score the game by having everyone add up the number of points on all cards they still have. The player with the lowest number of points wins.
